Fontkos Free Font Licence

Version 1.0, 27 October 2026

This licence applies to every font that fontkos.com offers as a free download. By downloading, installing or using the Font Software you agree to it. If you do not agree, do not use the Font Software.

1. Parties

1.1 The licensor is Vissor UG (haftungsbeschränkt), trading as Fontkos ("the Foundry"). Full company details are at vissor.de.

1.2 The licensee is the person or organisation that downloads the Font Software ("you"). If you download on behalf of an organisation, you confirm that you may bind it to this licence.

2. Definitions

2.1 **Font Software**: the font files in any format (for example OTF, TTF, WOFF, WOFF2), including their outlines, metrics, kerning and code, and every copy of them.

2.2 **Version**: the release of the Font Software you downloaded, as stated in the font files and on the download page.

2.3 **Client**: a third party for whom you create work.

3. Grant

3.1 The Foundry grants you a free, non-exclusive, non-transferable, worldwide licence to use the Version you downloaded, without time limit, for personal and commercial purposes as set out in this licence. All rights not expressly granted remain with the Foundry.

3.2 There is no limit on the number of users, devices, page views or applications within your own organisation.

3.3 The licence is free of charge. Free does not mean that the Font Software is in the public domain or open source.

4. What you may do

4.1 Desktop: install the Font Software on your computers and use it to create printed matter, images, video, signage, packaging, merchandise, presentations and documents, for yourself or for Clients.

4.2 Documents: embed the Font Software in PDF files in a way that does not allow the fonts to be extracted or edited.

4.3 Logos: use the Font Software to create logos and wordmarks, change the letterforms within such a logo, and register the logo as a trademark.

4.4 Web: use the Font Software on websites you or your organisation operate, either by self-hosting the web font files and displaying them through CSS @font-face, served from servers you control or a content delivery network acting for you, or by loading them from fontkos.com through the official embed link shown on the family page. When you use the embed link, the Foundry counts the websites that load the fonts; it does not record information about the visitors of those websites.

4.5 Apps: embed the Font Software in applications, games and e-books, so that end users cannot extract it or use it outside the application.

4.6 Clients: give the Font Software to a printer or service provider only to produce your work. A Client who wants to use the fonts itself downloads them from fontkos.com under this licence.

5. What you may not do

You may not:

5.1 sell, rent, sublicense or redistribute the Font Software on its own or as part of a font collection, including uploading it to file sharing services, public repositories or font websites; share the download link from fontkos.com instead;

5.2 modify, rename, merge or create derivative fonts from the Font Software, except converting formats for your own use and changing letterforms inside a logo under section 4.3;

5.3 remove copyright notices, licence information or embedded identification data from the Font Software;

5.4 register the Font Software, or a font derived from it, as a trademark or design;

5.5 use the Font Software in tools that let other people create their own output with it, such as online editors, template builders or print on demand services, without a separate written agreement;

5.6 use the Font Software to train machine learning models, or to generate new fonts.

6. Ownership

The Font Software is protected by copyright and other laws. It remains the property of the Foundry. You acquire only the rights of use set out in this licence.

7. Later versions and changes

7.1 The Foundry may offer later versions of the Font Software, or the same fonts, under different terms, including paid licences.

7.2 Such changes never take away the rights you hold under this licence for the Version you downloaded. You may keep using that Version as set out here, also after the Foundry changes its offer.

7.3 Updates offered free of charge under this licence are covered by it.

8. Warranty and liability

8.1 The Font Software is provided free of charge and as it is. Statutory warranty rules for gifts apply (sections 523 and 524 of the German Civil Code).

8.2 The Foundry is liable without limitation for intent and gross negligence, for injury to life, body or health, and under the German Product Liability Act. Any further liability is excluded.

9. Termination

9.1 Your licence ends automatically if you breach this licence. On termination you must delete all copies of the Font Software. Work created lawfully before the breach may continue to be used.

10. Governing law and jurisdiction

10.1 German law applies, excluding the UN Convention on Contracts for the International Sale of Goods. If you are a consumer, this choice of law does not take away the protection of mandatory consumer law of the country where you live.

10.2 If you are a merchant, a legal entity under public law or have no general place of jurisdiction in Germany, the place of jurisdiction is the Foundry's registered seat.

11. Final provisions

11.1 If a provision of this licence is invalid, the rest remains valid.

11.2 If this licence exists in several languages, the English version prevails, unless mandatory law requires otherwise.

11.3 Questions about this licence: hello@fontkos.com.
